

QSP/QSD TRAINING COURSE

QSP/QSD TRAINING COURSE FOR THE CALIFORNIA
CONSTRUCTION GENERAL PERMIT

FEBRUARY 8 - FEBRUARY 10, 2012

Presented by

Scott Environmental Health and Safety Services
in Conjunction with George Chan, P.E.
Trainer of Record - QSP and QSD Training Courses

Becoming a Qualified SWPPP Practitioner (QSP) and/or a Qualified
SWPPP Developer (QSD) is obtained via a specific process.

California's Construction General Permit (CGP) identifies a set of pre-
requisite qualifications that would demonstrate the skills, knowledge and
experience necessary to prepare and/or implement SWPPPs.

In addition, the CGP requires that individuals in these positions complete
a State Water Resources Control Board (SWRCB) approved or
sponsored training course.

Any individual may attend the Course for their own benefit.

WHO IS THIS COURSE FOR?

Any person seeking information in the areas of Stormwater, the
Construction General Permit, Erosion Control, Vegetation Establishment,
Low Impact Development (LID) etc. The Presentation Modules include:

- TRAINING OVERVIEW AND REGULATIONS
- EROSION PROCESSES AND SEDIMENT CONTROL
- SWPPP IMPLEMENTATION
- MONITORING
- REPORTING
- PROJECT PLANNING AND SITE ASSESSMENT
- SWPPP DEVELOPMENT AND PRDs
- PROJECT CLOSEOUT

The Presentation Modules and exercises also give attendees a close
look at the Construction General Permit (CGP) language in preparation
for passing the Exam.

PURPOSE OF PROGRAM

To provide individuals wishing to become Construction Qualified SWPPP
Developers and Construction Qualified SWPPP Practitioners with a
review of the information needed to develop and implement a Storm
Water Pollution Prevention Plan required by the Construction General
Permit (Order 2009-0009)
